

**Testimony of Antipova Galina.
The result of Grigori Grabovoi
on healing
Antipova Galina Stepanovna
from stage 4 breast cancer**

I am Antipova Galina Stepanovna,
Born in 1946, on July 14th in the
Republic of Uzbekistan, city Tashkent.
Currently I live in Moscow.

In March 1994, I had to contact Cancer Center in the city of Ufa, the Republic of Bashkortostan, regarding my health condition. As a result of a medical examination, I was diagnosed with breast cancer.

I received a medical report that clearly stated that I had multiple carcinoma, that is, breast cancer. Medical certificate number 4988, dated March 24th.

From March 24, 1994, I had been restoring my health under the guidance of Grigori Petrovich Grabovoi. That is, I took absolutely no medication.

In August 1994, I was re-examined by the same specialists and on the same medical equipment as in March 1994, in the city of Ufa, Republic of Bashkortostan.

And I had received a second conclusion, which says that I have no cancer. It was on 29th August 1994. I had received a second Medical Certificate with a number 143647, which confirmed that I did not have breast cancer.

Now it is the year 2019. Since 1994 I feel healthy, I am living a normal life.

I am very grateful to Grigori Petrovich Grabovoi for meeting on my life path. He helped me with his knowledge, his technology. Thank you, Grigori Petrovich, for giving me life. Thank you for giving life to other people.

Thank!
