

The result of Grigori Grabovoi. Testimony of Ksovreli Marina Restoring husband's health from stage 4 lung cancer.

I am Ksovreli Marina Rubenovna.

On September 6th, 1995, my husband, Berishvili Ivan Georgievich, bought a newspaper "Resonance". There, I had read, that ten-year-old boy who had IV stage cancer, a rhabdomyosarcoma, was healed by Grigori Petrovich Grabovoi.

I immediately ran to Grigori Petrovich for help. My husband has stage IV cancer on the right side of the lung. Metastases were already in the bronchi and in his neck. The diagnosis was made in the oncological center of Tbilisi, Prof.

Gagua.

On 8th September 1995 my husband and I, who did not know about his cancer, and even at this moment he does not know that Grabovoi restored him from cancer, were at the meeting with Grigori Petrovich. I filled out a questionnaire, wrote down the diagnosis of my husband's disease. On the 9th September 1995 I had met Grigori Petrovich in person on the following address: 79 Agmashenebeli Avenue, House of Gorky.

On 11th September 1995, after the extrasensory session done by G.P Grabovoi, we had done a blood test and took an X-Ray in a Railway Hospital near the railway station. Doctors were surprised and asked why we took an X-Ray of the chest, because all the organs were normal, including the lungs and other organs.

This result of the remote extrasensory work carried out by G.P Grabovoi, is known by my sister Cezanne Rubinovna Ksovreli and my brother User Rubinovich Ksovere.

After the extrasensory session, my husband was feeling good.

On 09th September 1995, at 12 o'clock midnight, he felt as if something had rolled down from above. I am sure that my husband recovered from cancer, I can prove to everyone the result of extrasensory work carried out by G.P Grabovoi.

I also want to add, that when my husband and I, were sitting in the hall at the lecture, after some time I felt relief in my heart, as if I was flying. I used to be afraid to go down in the subway, I used to feel the lack of air, but now I feel good.

Especially it should be noted that G.P. Grabovoi had healed my husband Berishvili Ivan Georgievich from IV stage lung cancer in 3 remote sessions, in conditions when the husband did not know that he had cancer.

I can present the X-Rays that were taken in the oncological center on 08th August 1995. They are showing: on the right side of the lung snapshot, the doctors said that here the patient has stage IV cancer. And now, look at the new X-Ray from 10th September 1995. It shows the same place of the disease, where cancer used to be. In this X-Ray you can see that the patient was cured. The X-Ray is good and my husband feels very good.

I believe in God and believe that G.P Grabovoi had cured my husband from IV stage lung cancer, because his treatment comes from God, and only divine power helps the believer.
