

**The result of Grigori Grabovoi.
Testimony of Victoria Sadovaya
Restoring daughter's health
in one session from bronchial
asthma and allergies.**

Grigori Petrovich Grabovoi had a healing session with my daughter, who had severe allergies to multicolor and had 1st degree asthma, one might say, asthmatic bronchospasms.

2 days later, after the first session, all bronchospasms had actually stopped. And the reaction to allergy tests showed “negative” result. That is, virtually no allergic and asthmatic manifestations have been observed all this time.

A week later, we had repeated allergy tests, which showed no results, i.e. there were no manifestations of allergy.
