

Numbered side of sheet No. 517 _____

REFERENCE

about correction results of deformation zones of the energy screen (EE) Mr. Zaitseva A.V. by operator Grabovoi G.P.

1. Patient information:

Mr. Zaitsev Alexey Viktorovich, lives in Tashkent.

He had complaint about his poor condition as a result of a heart attack that occurred on 12 June 1993, on the plane upon returning from Moscow to Tashkent.

An electrocardiogram was made in the NAC medical unit and diagnosed with "Angina pectoris - first time detected," and medication was prescribed.

The patient refused medical treatment and took 11 sessions of EE correction conducted by the operator.

2. Repeated electrocardiogram on 25 June 1993 gave a positive result, patient's condition had improved.

Conclusions: as a result of the treatment, patient's working capacity was fully restored, which is confirmed by a personal signature:

29 June 1993(signature)

Numbered side of sheet No. 518 _____
