on the establishment of the fact of recognition of Grabovoi Grigori Petrovich
healer and clairvoyant

I was born on November 19, 1952 in Tbilisi,
name of the document, series, number, by whom and when the document was issued: I have an identity
card: passport IV-TI No. 514510 issued by the Department of Internal Affairs of the Leninsky District
Executive Committee of Tbilisi on 18.08 77.

Due to the fact that I applied to Grabovoi Grigori Petrovich who was born on November 14, 1963 in the
village of Kirovsky, Kirovsky district of the Chimkent region of the Kazakh SSR (having a birth certificate
for Series II-OG No. 463794, a passport for Series III-OG

No. 586058, issued February 1, 1980), on September 8, 1995, in the Tsekavshiri building in Tbilisi, on
Freedom Square, due to my husband's illness, stage IV cancer of the right lung.

I declare that Grabovoi Grigori Petrovich really healed my husband's disease as follows. My husband,
Berishvili Ivan Georgievich who was born on April 17, 1948, was ill with stage IV cancer of the right lung
with metastases in the bronchi. The diagnosis was established at the Oncology Center in Tbilisi,
Professor R. Gagua. I have a panoramic picture of the chest, which was taken on 08/10/1995. On
September 8, 1995, I and my husband, who did not know about his cancer, came to meet Grabovoi G.P.
in the building "Tsekavshiri" on the street of Svoboda. After the session conducted by Grabovoi G.P. on
09/11/95 my husband took a panoramic picture of the chest in a railway hospital located near the railway
station, which showed that all organs of the chest were perfectly healthy and without any changes. Even
the doctors asked me why my husband took the picture. This is an evidence that Grabovoi G.P. cured my
husband at a distance from stage IV lung cancer with metastases in 69 hours.

Please certify my application on the basis of documents proving my identity and on the basis of the
above evidence.

Born on November 14, 1963 in the village of Kirovsky, Kirovsky district, Chimkent region of the Kazakh
SSR (having a birth certificate of the II-OG series No. 463794).

Place of filling out the testimony: Tbilisi Date: 1995.09.12 Time: 21:00 PM
I, Ksovreli Marina Rubenovna,
state: citizen of Georgia,

name of the document, series, number, by whom and when the document was issued: I have an identity card: passport IV-TI No. 514510,

place of work, position and office phones: not working.

I, Ksovreli Marina Rubenovna, was born in Tbilisi, on November 19, 1952 in a railway hospital at 3 o'clock at night, I have an identity card: passport IV-TI No. 514510 issued by Len. Region on 08/19/1977. I live in Georgia, Tbilisi.

My husband, Berishvili Ivan Georgievich, bought the Resonance newspaper on September 6, 1995. There, I read that Grigori Petrovich Grabovoi cured a ten-year-old sick boy who had stage IV cancer - rhabdomyosarcoma. I immediately ran to Grigori Petrovich for help. My husband had stage IV cancer on the right side of the lung. The diagnosis was made in the oncology center of Tbilisi by prof. Gagua.

On 09/08/1995, my husband and I, who did not know about his cancer, and even at the moment is not aware that Grabovoi has cured him of cancer. We came to meet Grigori Petrovich. I filled out a questionnaire, recorded the diagnosis of my husband's disease there, and on September 9, 1995 I was personally received by G.P. Grabovoi, at address: 79 Agmashenebeli Ave., club named after Gorky.

On September 11, 1995, after the extrasensory work carried out by G.P. Grabovoi, he had a blood test and took a picture in a railway hospital located near the railway station. Doctors were surprised and asked why we took the picture of the chest, because all organs were normal, lungs and other organs.

My sister and brother Ksavreli know the result of extrasensory work carried out in absentia by Grabovoi G.P. After extrasensory work, my husband is doing well. On September 12, 1995 at night, he felt as if something had rolled down from top to bottom. I'm sure that my husband was cured of cancer and I can prove the result of extrasensory work,

carried out by Grabovoi G.P.

I would like to add that when my husband and I sat in the hall for a lecture, after some time I felt relief in my heart, as if I were flying. I used to be afraid to go down the subway, I felt lack of air, but now I feel good.

It should especially note that G.P. Grabovoi extrasensoryly cured my husband of stage IV lung cancer in 3 sessions under conditions when the husband did not know that he had cancer.

I believe in God and believe that Grabovoi G.P. cured my husband of stage IV lung cancer, because his treatment comes from God, and only divine power helps the believer.

I, Berishvili Ivan Georgievich,
born on April 17, 1948 in the village of Glola Onsky district of the GSSR,
state: citizen of the Republic of Georgia,
name of the document, series, number, by whom and when the document was issued: I have an identity
card: VI-TI passport No. 584434.

On 08/10/1995, I went to the doctor after a cold. Doctors sent me to the oncology center of Tbilisi.

After the examination, I did not know my disease (diagnosis), the diagnosis was known by my wife,
Ksovreli Marina Rubenovna, born in 1952.

According to the "Resonance" newspaper, I learned that the psychic Grabovoi Grigori Petrovich is
arriving in Tbilisi.

On 09/08/1995, in the building "Tsekavshiri" on Freedom Square, a meeting of Grabovoi G.P. with
patients, where I was present took place. After the meeting, my wife filled out a questionnaire for me.

After extramural sensory work conducted by G.P. Grabovoi, I underwent blood tests and a had chest
picture in the railway clinic in Tbilisi, where, after comparison with an old analysis and a chest picture,
they told me with surprise that I had lungs and other organs of the chest perfectly healthy.

After this story, my wife told me that I had a cancer of the fourth stage of the right lung with metastases
in the bronchi.

We all know that such a disease cannot be cured, but God probably sent a man like Grabovoi Grigori
Petrovich who cured not only me, but also many other patients, for which we are very grateful to Grigori
Petrovich Grabovoi.
