1. Used devices 1, 2, 3, 4, 5:

Used all 5 devices in turn in one concentration, noting all feelings and writing down them, and then passed to the following device, in the order of their representation and function of appointment.

2. Carried out concentration on the lenses of the devices; that's how I worked.

And for these 4 years, being engaged on PRK-1U work three times a week, on Grigori Grabovoi's webinars, I do not grow old, and every year I feel that there is a countdown of time and it became especially noticeable during the work on PRK-1U with medical profiles. And at present when daily we work on number series with PRK-1U, the gastrointestinal tract comes to norm, sphincters of the large intestine and excretory system have improved well, it became noticeable from the very beginning of work with devices of medical profiles.

The attacks after eating disappeared even after the food that I could not eat during these 4 years, and now I try and there is no negative reaction, attacks of pain. The function of the microcirculatory channels of the lower and upper extremities improved, as well as in the back muscles, blood circulation of the large, arterial and venous parts of the circulatory
