

**Testimony of Marina Morozkina
(doctor).
Health restoration with the help
of PRK-1U device.**

Hello, my name is Marina Morozkina.

I have a Degree in Medical Science. In the past, I have worked as a medical doctor.

At the moment, I am a lecturer and a consultant at the

Education Center for studies the Teachings of Grigori Grabovoi in Serbia.

I have been studying the teachings of Grigori Grabovoi since 1991. I have been successfully using Grigori Grabovoi's methods for managing events and health.

Since September 2018, I have been continuing to study Standard Educational Program on the Teachings of Grigori Grabovoi, by using - PPK-1U, the 3 mode device for developing concentrations of eternal life.

This device was created by Grigori Grabovoi on the basis of his two patents, "The Information Transmission System" and "The Method of the Prevention of the Catastrophizes and the Device for its Implementation".

The device PRK-1U, helps to develop human consciousness, so that a person can fully control the creativity of events and health norms, with the help of his own inner potential.

As a result of the use of the device PRK-1U, was my rejuvenation, a change of the functioning of my body: my physical body became more enduring, the need for sleep and food decreased.

The diet has changed, I practically gave up meat, eggs, coffee.

Moreover, the refusal of such products happened naturally, that is, I did not put any logical restrictions on food.

For me, it was very interesting to observe, how in two months' time, significantly changed my physical body. I got rid of excess weight, and again, I would like to highlight here, that I did not set such a goal to lose weight.

The goal of a control work was – the rejuvenation and the development of the physical body to the conditions of an eternal body.

I can also add here, that after such restructuring, I had noticed that regenerative capabilities of my physical body rapidly increased.

A few months ago, I had experienced, that the control work for the restoration of health from injuries, goes much faster, when it is done with the device PRK-1U, very quickly manifested the anesthetic effect and the rate of regeneration of soft tissues increases.

For me, for the medical doctor, particularly interesting, was the following result:

In the beginning of April, I needed to receive a dental care. In the process of visiting the dentist, I needed to remove several teeth.

Since my job involves constant communication with other people, it was necessary for me to restore the norm of tissues of the dental system in the shortest possible time. After each dental appointment, I had conducted the control works with the help of the device PRK-1U, in the beginning, for 5–6 hours a day, afterwards I had worked with the device for 2–3 hours. As a result, regeneration of the soft tissues of the gums happened at the highest speed. I did not feel pain, there were no swelling of the tissues, and there were no complications at all.

That is, conducting the control work with the device for health normalization showed, that the device helps to intensify the regenerative capabilities of the body, activates the immune system, helps to launch the rejuvenation mechanisms that exist in the physical body of a person.
