With this Testimony I certify the fact of the implementation and propagation of the Teachings of Grigori Petrovich Grabovoi with the receipt of a positive result, which is as follows:

- 1. I got acquainted with the Teachings of Grigori Grabovoi in July of 2000.*
- 2. In the process of mastering the Teachings, I became convinced, that it has a creative nature and is accessible to learn for anyone.*
- 3. For the implementation of the Teachings of Grigori Grabovoi, I applied the methods of control set forth in the works of Grigori Petrovich Grabovoi.*

4. I hereby testify that the methods of control of Grigori Grabovoi and the PRK-1U device save people in critical and catastrophic situations.

I was born and lived almost all my life in the city of Almaty, where earthquakes occur from time to time, and residents always live in anticipation of possible tremors. In 2013, after a fairly significant earthquake, I had a conversation with Grigori Grabovoi on the issue of control in such situations. Dr. Grabovoi advised using the number series from his book "NUMBERS FOR SUCCESSFUL BUSINESS" to prevent the impact of natural disasters: 914712 819 19 84 – "Protecting the Earth and restoring..."

Since then, I have been doing almost every day the control with this number sequence to protect my home, nearby houses and the entire city. I also conduct for other cities where my loved ones are located. Since I have got in 2019, the PRK-1U device, I carry out this control on the device every day for several minutes. When our family moved to Illinois, USA, I do the same control for the safety of our house in Illinois and also still for my apartment in Almaty, where I stay when I come on business. Based in either Illinois or Almaty, I provide control for the safety of homes in Illinois and Almaty.

On January 22, 2024, I was in Almaty with one of my two devices, which I always carry with me when travelling. As usual, at the end of the day I carried out control according to my current goals on the PRK-1U device. These goals include control for the protection and safety of our Almaty and Illinois homes. When it was time to concentrate on this goal, I had a desire to take a break and have tea. But then suddenly a persistent thought arose, "First I'll carry out the concentration, then I'll have tea."

I concentrated on the device first for Illinois, then for Almaty. The goal included "Protecting and securing my home, all nearby homes, and all homes and buildings in the city (state) and ensuring eternal life for everyone." I concentrated, as usually, on the number sequence 914712 819 19 84, then on the device. I perceived a bright white-silver light that comes from the device, envelops my apartment and house, then all the houses nearby and the whole city. On January 22, 2024, I carried out this concentration during 10 minutes and finished this work at exactly 24:00, midnight).

I started making tea and during this period strong tremors began. An earthquake began in Almaty. The force of the tremors and swaying of the floor and walls was much stronger than in all previous earthquakes in Almaty in my entire previous life. At first it seemed to me that I was suddenly dizzy, but then I realized that it was the walls and floor that were moving. Furniture drawers pulled out, doors opened and swayed. I couldn't even take a step. I just turned to the PRK-1U device, which was 1.5 meters away, and having established eye contact with the device, I mentally repeated: "It stops, it stops, it stops." The shaking and rocking gradually stopped. I examined the apartment - there was no damage. The confident thought arose that nothing more would happen. I called my family and continued drinking tea, then continued with the usual concentration on my goals.

An official message appeared on the Internet that an earthquake occurred with an epicenter 260 km from Almaty with a magnitude of 7 at the epicenter and a magnitude of 5 in Almaty.

Official confirmation of Kazkahstan

However, in my opinion, and in the opinion of people who, like me, have lived all their lives in Almaty and also have experience of being in buildings during earthquakes, this earthquake was much, much stronger than anything that had ever happened before. Almost the entire population of the city ran out into the street, despite the frost. Many got into their cars and drove outside the city, to an area where there were no multi-story buildings. I watched this picture from the window of my house, then the media reported the same information. Huge traffic jams formed on the way out of the city. The reaction of people suggests that they felt the great force of the earthquake. People living in Almaty are accustomed to earthquakes of about 5 magnitude, during which they do not even go outside.

Thus, on January 23 at 00:09 hours a strong earthquake occurred in Almaty. There are many videos of walls swaying as if by the wind.

However, as it turned out later, no destruction occurred in the city. None of the residents were directly affected by the earthquake. Several people suffered injuries from running down stairs or jumping out of a window from the 2nd or 3rd floor.

I believe that the prevention of destruction in the city and the absence of harm to human health contributed to

- My daily concentration on the goal: "Protection and safety of my home, all nearby houses and all houses and buildings in the city and ensuring eternal life for everyone."
- My concentration, carried out a few minutes before the earthquake, about the need for which I received information through controlling clairvoyance while concentrating on the device,
- The operation of the PRK-1U device, which continues to harmonize and create favorable events for me, even when I am not concentrating on it. Ensuring the safety and protection of my home and city is undoubtedly the most important event for me that the PRK-1U device provided.
